As a computer professional for over 20 years, I'm shocked that the US government is still trying to sue Microsoft.

Microsoft has contributed more to this country than all the other computer companies combined. Instead of a well deserved award, you are punishing them, obviously on behalf of their competitors in Utah (Novell), California (Sun/Oracle) and New York (IBM/AOL).

Stop trying to kill the goose that continues to lay golden eggs!

Shame on you for supporting their competitors in such a painfully biased and unfair way!!! It's incredibly obvious what a hack job this is.
